Confidential Business Information: Confidential Business Information (CBI) is commercial or financial information that is both customarily and actually treated as private by its owner. Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this notice contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this notice, it is important that you clearly designate the submitted comments as CBI. Pursuant to 49 Code of Federal Regulations (CFR) § 190.343, you may ask PHMSA to give confidential treatment to information you give to the agency by taking the following steps: (1) mark each page of the original document submission containing CBI as

“Confidential”; (2) send PHMSA, along with the original document, a second copy of the original document with the CBI deleted; and (3) explain why the information you are submitting is CBI. Unless you are notified otherwise, PHMSA will treat such marked submissions as confidential under the FOIA, and they will not be placed in the public docket of this notice. Submissions containing CBI should be sent to Kay McIver, DOT, PHMSA-PHP-80, 1200 New Jersey Avenue, SE, Washington, DC 20590-0001. Any commentary PHMSA receives that is not specifically designated as CBI will be placed in the public docket for this matter.

SUPPLEMENTARY INFORMATION:

PHMSA received a special permit request from FGT seeking a waiver from the requirements of 49 CFR § 192.611(a)(3): Change in class location: Confirmation or revision of maximum allowable operating pressure. This special permit is being requested for class location changes in lieu of pipe replacement, pressure testing, or pressure reduction for 13 special permit segments totaling 1.34 miles of the FGT pipeline system. The proposed special permit segments are located in four (4) counties (Citrus, Hernando, Hillsborough, and Pasco) in Florida. The pipeline class locations in the special permit segments have changed from either a Class 1 to Class 3 location or from a Class 2 to Class 3 location. The FGT pipeline has not been pressure tested to a high enough pressure to meet the requirements in 49 CFR 192.611(a)(3). The special permit segments are not contiguous

and are comprised of either 18-inch, 30-inch, or 36-inch diameter pipe with existing maximum allowable operating pressures (MAOP) of either 1,322 pounds per square inch gauge (psig) or 1,333 psig. The installation dates of the special permit segments range from 1992 to 2007. The special permit segments are included in an existing Alternative MAOP special permit (PHMSA-2008-0077) that allows the special permit segments to operate at class location stress levels that meet 49 CFR 192.620(a)(1).

The special permit request, proposed special permit with conditions, and Draft Environmental Assessment (DEA) for the FGT pipeline are available for review and public comment in Docket No. PHMSA-2020-0044. We invite interested persons to review and submit comments on the special permit request, proposed special permit with conditions, and DEA in the docket. Please include any comments on potential safety and environmental impacts that may result if the special permit is granted. Comments may include relevant data.

Before issuing a decision on the special permit request, PHMSA will evaluate all comments received on or before the comment closing date. Comments received after the closing date will be evaluated, if it is possible to do so without incurring additional expense or delay. PHMSA will consider each relevant comment it receives in making a decision to grant or deny this request.

Issued in Washington, DC, under authority delegated in 49 CFR 1.97.

Alan K. Mayberry,

Associate Administrator for Pipeline Safety.
